

## Bureau of EMS List Servers

The Bureau of EMS has created self-subscribed e-mail lists to enhance communications with Iowa's EMS providers. These e-mail lists will be used to send non-confidential information from the Bureau to its subscribers. Recipients will not be able to respond to messages they receive via the e-mail list. If an individual needs to respond they should contact the Bureau, or their regional staff member, directly.

To join the list, send a blank email to the address shown below that corresponds to the list you are joining.

***Statewide-** Used to communicate issues concerning the State of Iowa or EMS at the national level.*
