Plumbing and Mechanical Systems Board
Continuing Education Committee Notes
April 28, 2010
Dial in: 1(866) 685-1580 Code #0009991700

3:00pm to 5:00pm Lucas Room 208

Present: Jane Hagedorn, Tom Day, Mick Gage, Brita Van Horne, Matt Oetker, Cindy Houlson, Susan Van Horn and Mary Swinehart

Jane Hagedorn called the meeting to order.
Notes from April 20, 2010 were approved

Applicant Jeff Howe was reviewed on April 23rd. A 3rd party verification letter will be sent.

Chapter 30
Matt's draft of Chapter 30 will include the two changes submitted at the last meeting. An application will be drafted after the rules have been approved by the board.

Question: What to do without geothermal language not incorporated into Chapter?
Ultimately, geothermal needs to be addressed. Meeting with geothermal partners is scheduled for a meeting this Friday. More direction may be available following that meeting.

Geothermal
This committee agreed a licensed plumber may not do geothermal work. This language will need to be placed into the definition. Geothermal is still in the statue, even though it was left out of the rules. This issue will be placed in pending till settled.

Have you discussed with Ken about suggestion for lap tops for committee members?
Cindy has not meet with Ken on this suggestion yet.

CEU committee meeting weekly. Jane voiced her concern to have weekly meetings due to the volume of applications to be reviewed. Sheri voiced her concern that being new and not as proficient as Stephanie that she may not be able to have the applications ready for review on a weekly basis. There are 40-50 applications to be reviewed. Breakoff for accepting applications for the next meeting is Friday at 4 p..m.

Suggestion was made to send out a survey, wherein members could vote for approval or not. This would reduce the bulk of the applications.

Next Meeting Wednesday, May 5, 2010 from 3:00pm to 5:00pm Room 218
