Q1. Can you please clarify the expectations of the grant.
On Page 5 of the RFP:
100 of the 200 colonoscopies must be performed during the period of March 1, 2013 - June 30, 2014

On the Cover Page of the Grant:
100 of the 200 colonoscopies must be performed during the period of March 1, 2013 – June 30, 2013

Who determines the budgeted number of screenings? The applicant? Or IDPH? Based on the above numbers, 75% of 100 screenings, would equal 75 screenings entered and follow-up completed by June 30, 2013?

On page 20 and 21 of the RFP: The withheld funds will be released when the Contractor screens 75 percent of the budgeted number of participants to be screened between March 1, 2013 and June 30, 2013. Once 75 percent of participants have been screened and documented, the funds will be released. Documentation must show that screenings are entered and follow-up completed. For participants screened between March 1, 2013 and June 30, 2013, data must be completed and entered by July 30, 2013.

If the Contractor fails to complete 75 percent of the budgeted screenings during March 1, 2013 and June 30, 2013; the withheld funds will not be released and will be deducted from the contract total.

A 1. The RFP, page 5, contained an error in the date. The correct date should be March 1, 2013-June 30, 201**3**. Please refer to Amendment #1 of the RFP.
In efforts to distribute the funds available and get colonoscopy screening services to Iowans, IDPH has predetermined the number of budgeted screenings applicants can apply for (Option A or Option B). Pages 20 and 21 explain the performance measure that will be included in a resulting contract; note “The withheld funds” refers to $600 (not the entire funds available).
