Train to Gain

Plumbers SUPPLY COMPANY

Thursday, Feb 20, 2014
1:00 – 7:45 pm

2009 IMC Code Update

1:00—3:00 pm This 2-hour course will cover the integration of old and new, UMC and IMC history with special focus on definitions and ventilation as well as chapter 89 code of Iowa boiler regulations. Sizing natural gas lines and discussing the State mandated Energy Code (IECC) will also be part of this class. **Bring your code book with you to the class.**

(Note: this is the same IMC course as previously held at PSC. It can be taken only once over a 3yr licensure period and count for statewide licensing CE credit)

2 hrs. IMC Code CE

OSHA - Construction Industry Training

3:15 pm—7:45 pm This 4-hr course is Construction Industry training within the scope of the OSHA 29 CFR 1926 regulations, as required by the U.S. Dept. of Labor, Occupational Safety and Health Regulations. This course consists of several subparts including: General Safety and Health Provisions; Occupational Health and Environmental Controls; Personal Protective devices and Life Saving Equipment; Fire Protection and Prevention; Barricades, material handling and storage; Hand tool and Power tool safety; Welding and cutting ventilation, electrical safety and scaffolding; Fall protection, stairways and ladders, toxic and hazardous substances.

4 hrs. OSHA Safety CE

Rick Behanish, president and owner of Iowa Trades Educational Association, will be the instructor for both the IMC Code Update and OSHA training class. Mr. Behanish is the retired Senior Mechanical Inspector with Des Moines with 28 years experience serving in this capacity. He also holds 40 years experience as a heating contractor. Both the instructor and the courses have been approved for credit toward Iowa Mechanical Code requirement established by the Iowa Plumbing and Mechanical Systems Board. **The IMC code class is worth 2 hours of Iowa Mechanical Code (IMC) CE credit, and the OSHA class is worth 4 hours of OSHA/Safety CE credit.**
