Background

- House File 2539 Health Care Reform legislation, 2008 Session (now Iowa Code 135.163 & 135.164)
  - The department (IDPH) shall coordinate public and private efforts to develop and maintain an appropriate health care delivery infrastructure and a stable, well-qualified, diverse, and sustainable health care workforce in this state.
  - The health care delivery infrastructure and health care workforce shall address the broad spectrum of health care needs of Iowans throughout their lifespan including long-term care needs.

- Develop a strategic plan
- Provide for the continuous collection of data
- Make recommendations that assist in monitoring needs, predicting trends, and informing policy making.

By January 2010 and every 2 years thereafter

"The department shall …"

- "Establish a technical advisory committee to assist in the development of the strategic plan.

Members of the committee may include but are not limited to health economists, representatives of the university of Iowa college of public health, health planners, representatives of health care purchasers, representatives of state and local agencies that regulate entities involved in health care, representatives of health care providers and health care facilities, consumers."

Health and Long Term Care Access Advisory Council

- Cindy Baddeloo – Iowa Health Care Association
- Roy Bardole – consumer
- Bobbretta Brewton – Primary Health Care
- Shelly Chandler – Iowa Association of Community Providers
- Dr. Conway Chin – Iowa Osteopathic Medical Association
- Betsy Chrischilles – Iowa Pharmacy Association

- Dr. David A. Plundo – DMU, Area Health Education Center
- Catherine Simmons – Iowa Health System
- Laura Malone – Iowa Hospital Association
- Julie Stauch – Family Planning (Planned Parenthood of Greater Iowa)
- Roger Tracy – U of I, Office of Statewide Clinical Education Programs

A Significant Charge

- "… shall include statewide health planning policies and goals related to the availability of health care facilities and services, the quality of care, and the cost of care."
- " … responsive to changing health and social needs and conditions …"
- "Describes state and regional population demographics, health status indicators, and trends…"
- "Identifies key policy objectives … related to access …, health care outcomes, quality, and cost effectiveness"

Required Components

1. Health care system assessment & objectives
2. Health care facilities and services plan
3. Health care data resources plan
4. Assessment of emerging trends in health care delivery and technology
5. Rural health resources plan
6. Health care workforce resources plan

Logic Model

Health and Long-Term Care Access

Implementation of HF 2539 Health Care Reform legislation health and long term care access components

Iowa Code 135.163 and 135.164

Inputs	Outputs: Activities	Outputs: Participation	Outcomes – Impact: Short	Outcomes – Impact: Medium	Outcomes – Impact: Long
2010 • IDPH direction & facilitation • Previous reports • HLTCA AC member input • Stakeholder attendance and input	• Establishment of priority area - workforce • Iowa Health Workforce Center convenes Health and Long-Term Care Access Advisory Council (HLTCA AC) • Final report and recommendations to Governor & Assembly	• IDPH – Iowa Health Workforce Center • HLTCA AC • Stakeholders	**Strategic Plan 2010** 1. General strategies – Iowa Health Workforce Center 2. Establish process 3. Health and long-term care workforce (135.164 3.f.)		
2012 • IDPH – Iowa Health Workforce Center coordination and engagement of relevant existing work groups • IDPH direction & facilitation • HLTCA AC member input • Stakeholder attendance & input	• Steering Committee and IDPH staff roles established & clarified • Structure for coordinating activities across committees, councils and workgroups (point of coordination & T.O.) • Rolling in additional strategic plan components	• IDPH – Iowa Health Workforce Center • HLTCA AC • Rural Health and Primary Care Advisory Committee • E-Health • IDPH Certificate of Need • State Agencies • Stakeholders • Policymakers		**Strategic Plan 2012** 1. System assessment & objectives component (135.164 3.a.) 2. Health care facilities & services plan (135.164 3.b.) 3. Health care data resources plan (135.164 3.c.) 4. Assessment of emerging trends in HC delivery & technology (135.164 3.d.) 5. Rural health care resources plan (135.164 3.e.) 6. Health care workforce resources plan (continue, revisit) (135.164 3. f.)	
2014 • Evaluation • Updated data	• Implementation of structure • Improvements as appropriate	• Above			**Strategic Plan 2014** 1. Evaluation & report on progress 2. CQI 3. Revisit & update goals & strategies 4. Responses to legislative direction

Assumptions

Continued need to address workforce issues
Health care reform activities at both the State and Federal level

External Factors

- Legislative direction
- Economy and budget
- Federal health care reform

Acronyms: IDPH – Iowa Department of Public Health; HLTCA AC – Health and Long-Term Care Access Advisory Council; CQI – Continuous Quality Improvement
