IV. Substance Abuse/Problem Gambling Update – Kathy Stone

Ms. Stone reviewed topics of potential interest to the Committee:

- IDPH intends to fill the Gambling Treatment program manager position formerly held by Mark Vander Linden.
- IDPH is participating in two NIATx technical assistance projects:
  - Eric Preuss will continue the current Gambling Treatment technology capacity expansion project.
  - DeAnn Decker, Substance Abuse bureau chief, will lead a workforce credentialing project, potentially based on a "Jobs to Careers" model.

IDPH continues to consider the potential implications of federal and state health care policy changes on substance abuse and problem gambling services. A prime focus has been the appropriate role of local, community-based, non-traditional providers and future accountable care organization structures and the engagement of uninsured individuals in expanded enrollment opportunities. A two to five year transition of the current safety net infrastructure is anticipated.
