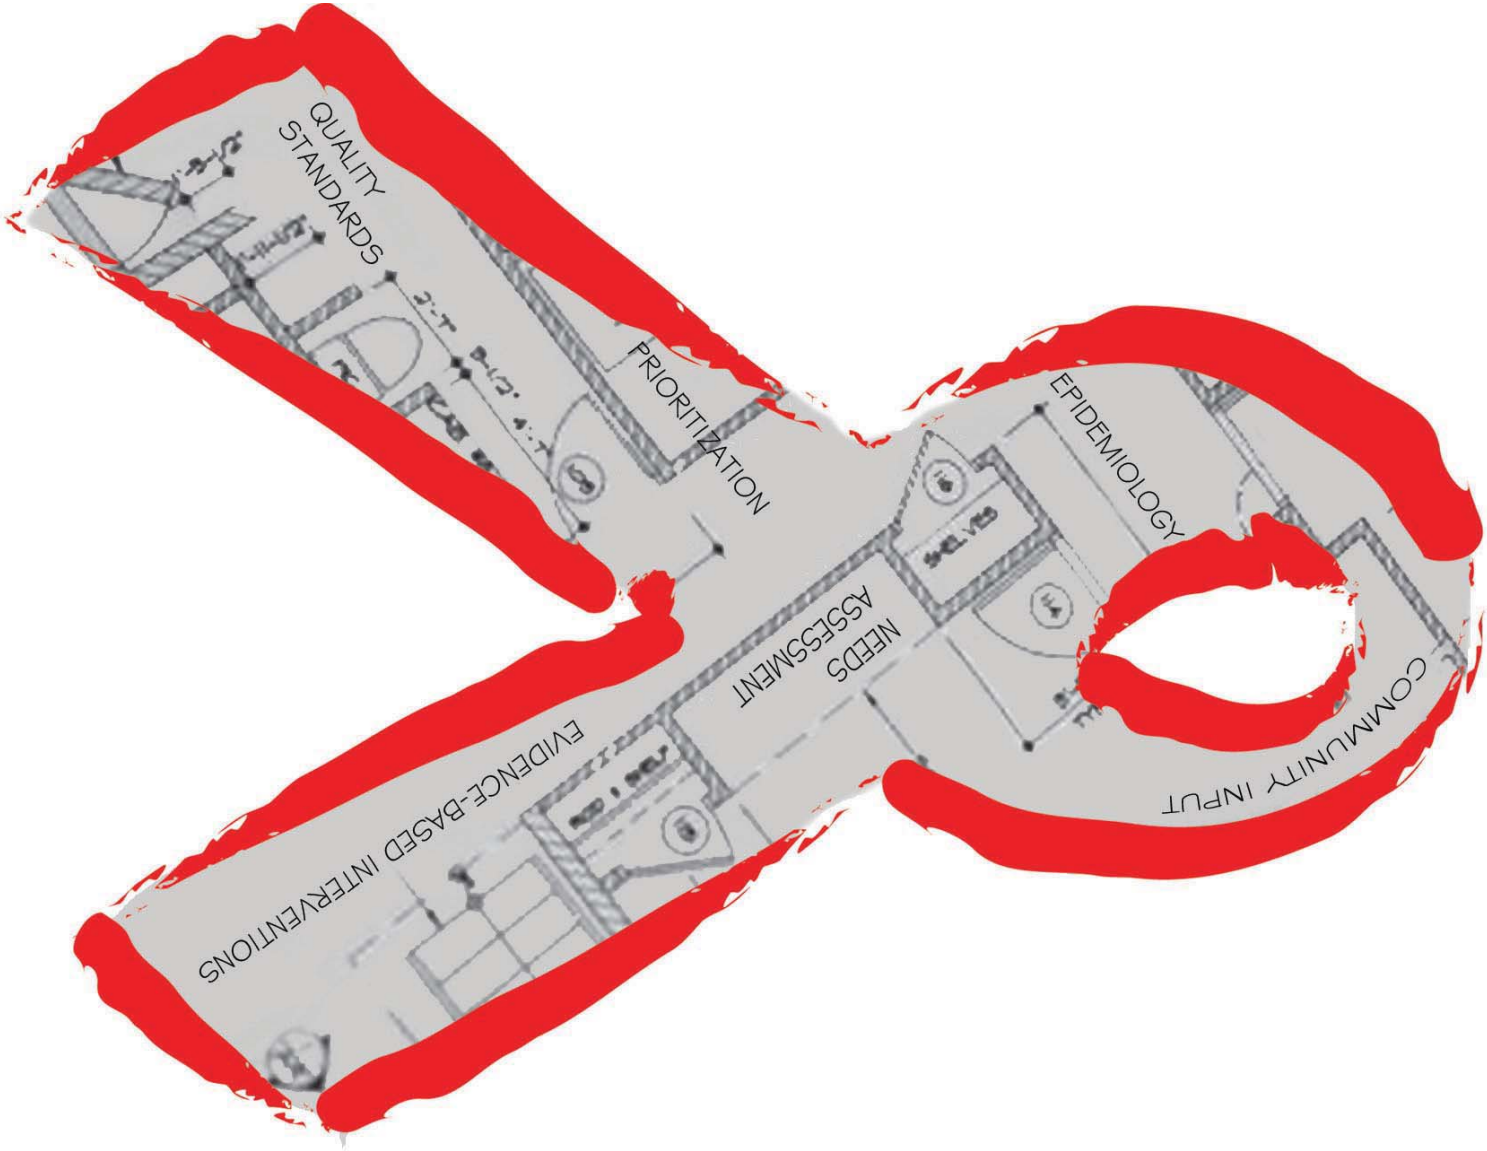
Iowa Comprehensive HIV Plan

A BLUEPRINT FOR PREVENTION & CARE SERVICES: 2007-2009



Iowa Comprehensive HIV Plan 2007 – 2009

Table of Contents

Foreword

Letter from the HIV Community Planning Group Co-Chairs VI
CPG Member Listing VII
List of Acronyms VIII

Part A: Introduction

How to Use This Document XII

Chapter 1. Introduction to Planning 1.1
HIV/AIDS Prevention and Care Community Planning 1.2
Origins and Purpose of HIV Prevention Community Planning 1.2
Origins and Purpose of HIV Care Planning 1.3

Chapter 2. Overview of the Iowa HIV Community Planning Group 2.1
History and Structure of the Iowa Community Planning Group 2.2
Committee Descriptions 2.3
Participants in the Planning Process 2.4
Iowa HIV Community Planning Group Composition 2.7
Education for CPG Members 2.9

Part B: Epidemiological Profile

Chapter 3. HIV In Iowa 3.1
Executive Summary 3.2
Introduction 3.4
Data Sources 3.5
Guidelines to Prevent Misinterpretation of the Data 3.10
Organization of the Profile 3.11
Section I: Core Epidemiological Questions 3.12
What are the socio-demographic characteristics of Iowa's population? 3.13
What is the epidemiology of HIV and AIDS in Iowa? 3.19
Who is at the greatest risk of becoming infected with HIV and other STDs in Iowa? 3.86
Section II: Ryan White CARE Act Special Questions and Considerations 3.108
What are the characteristics of persons living with HIV/AIDS who receive HIV services in Iowa? 3.114
What are the patterns of utilization of HIV services by persons with HIV in Iowa? 3.121
What are the number and characteristics of persons who know they

are HIV positive, but who are not receiving HIV primary medical care? 3.125

Part C: Community Services Assessments

Chapter 4. Needs Assessments, Key Informant Interviews, and Focus Groups.....4.1
Data Collection Methods 4.2
Inventory of Iowa HIV/AIDS Needs Assessment Studies 4.3
Key Informant Interviews 4.10
Focus Groups 4.21
Young Adult Roundtables.....4.32

Chapter 5. Consumer Needs Assessment.....5.1

Executive Summary 5.2

Chapter 6. STD/HIV/AIDS Provider Services Survey 6.1
STD/HIV/AIDS Provider Services Survey 6.2
Organization/Agency Principal Function 6.3
Services Provided and Clients Served 6.4
HIV/ADIS Prevention Services 6.5
STD Prevention, Testing, Treatment Services 6.11
STD/HIV/AIDS Prevention Related Activities and/or Services 6.14
Evidence Based Interventions.....6.15
Specific Prevention Services 6.18
HIV Prevention Capacity Building 6.25
HIV/AIDS Care Related Services.....6.29
Health Related and Support Services.....6.36
Barriers and Plans for Prevention, Care, and Education Services 6.39
Stigma Associated with HIV/AIDS 6.44
Agency Training/Capacity Building.....6.44
Summary and Recommendations 6.49
HIV Prevention Program Coordination 6.71

Part D. Prevention and Care Priorities

Chapter 7. Priority Populations for Prevention Activities.....7.1
Gap Analysis.....7.2
Prioritization of Target Populations.....7.6
Identify Populations.....7.6
Description of Target Populations 7.7
Determining the Selecting Factors.....7.10
Weights Assigned to Selecting Factors.....7.10
Rating Target Population using Weighted Factors 7.11
Scoring the Target Populations.....7.12

Chapter 8. Care Statewide Coordinated Statement of Need 8.1
Section I: HIV/AIDS in Iowa 8.2
Epidemiological Profile 8.2
Service Overview.....8.8
Estimated Unmet Need for Primary Medical Care 8.13
Section II: Crosscutting Themes and Issues 8.16
Access and Maintenance of Care Issues 8.16
Challenges in Coordination and Collaboration.....8.26
Challenges in Quality Management.....8.31

Part E. Implementation Plan

Chapter 9. Prevention Recommendations and Conclusions 9.1
HIV Prevention Goals.....9.2
Recommendations for HIV Prevention services.....9.3
Counseling, Testing, And Referral 9.3
Partner Counseling and referral Services.....9.4
Health Education/Risk Reduction.....9.5
Perinatal Transmission Prevention 9.6
Public Information Programs, Social Marketing and Media 9.6
Systems Capacity, Capacity Building.....9.7
Community Planning 9.8
HIV/AIDS Surveillance.....9.9
HIV Prevention funding.....9.10
Conclusions 9.11

Chapter 10. Care Strategic Plan.....10.1
PLWHA not in Care.....10.2
Communication, Coordination, and Collaboration among Programs for PLWHA.....10.3
Access Barriers 10.4
Quality Assurance.....10.6

Part F. Tools for Prevention and Care

Chapter 11. Prevention Interventions 11.1
Section I: Crosscutting Themes 11.3
Serostatus Approach to Fighting the HIV Epidemic 11.4
General Guidelines.....11.6
Program Design 11.6
Organizational Components.....11.6
Minimum Standards of Service 11.12
Strategies for Prevention Intervention and Community Endeavors (SPICE) Principles 11.12

Behavior Theory and HIV Prevention 11.14
Health Belief Model.....11.15
Social Cognitive Theory 11.16
Stages of Behavior Change Model 11.17
Theory of Reasoned Action 11.18
Diffusion of Innovations Theory 11.19
Empowerment Theory 11.20
Social Networks and Social Support.....11.21
Section 2: Interventions, Cost Effectiveness, Barriers.....11.22
Advancing HIV Prevention.....11.23
Spectrum of Intervention types.....11.24
Intervention Categories…… .11.25
Counseling, Testing, Referral, & Partner Counseling and Referral Services.....11.28
Counseling, Testing, Referral 11.28
Partner Counseling and Referral.....11.33
STD Diagnosis and Treatment.....11.34
Hepatitis 11.35
Health Education and Risk Reduction 11.36
Individual-Level Intervention 11.36
Comprehensive Risk Counseling and Services 11.37
Group-Level Intervention 11.39
Outreach.....11.40
Health Communications/Public Information 11.46
Media 11.47
Hotlines/Clearinghouses 11.48
Presentations/Lectures 11.49
Community-Level Intervention 11.51
Community Organizing 11.51
Social Marketing.....11.53
Public Events 11.54
Cost Effectiveness.....11.55
Barriers to Implementing Interventions.....11.59
Section 3: Intervention Sets for Target populations 11.60
Prioritized Intervention for Iowa's Target populations 11.61
Prevention Interventions.....11.64
Evidence-Based Intervention Fact Sheets.....11.74

Chapter 12. Case Management Standards 12.1
Care Planning.....12.2
Ryan White CARE Act.....12.3
Other Financial Assistance and Community Resources 12.4
Care Principles.....12.7
Barriers to Care Service Delivery.....12.9
Strategies to Overcome Barriers to HIV Care Services.....12.11
Gaps in Service 12.13

HIV/AIDS Case Management 12.15
Case management Standards.....12.16
Initial Client Contact.....12.17
Intake/Assessment.....12.19
Care Plan Development 12.24
Care Plan Implementation.....12.26
Care Plan Follow Up/Monitoring 12.28
Ongoing Reassessment 12.30
Transfer and Discharge.....12.31
Case Management Timeline 12.33
Definitions.....12.34
Appendix A.....12.37
Appendix B 12.41

Part G. Attachments

CPG By-Laws

SHAPING A COLLABORATIVE RESPONSE

Iowa HIV Community Planning Group

Programming for HIV prevention and care has been an integral part of Iowa Department of Public Health's (IDPH) activities for over two decades. Since January 1994, the department has implemented an ongoing, comprehensive planning process to improve the effectiveness of the department's HIV prevention and care programs by strengthening the scientific basis and community relevance, and by developing an HIV prevention and care plan that best represents the needs of populations infected with or at risk for HIV. The department and the Iowa HIV Community Planning Group are committed to a program that incorporates the views and perspectives of groups at risk for HIV infection, persons living with HIV/AIDS, and providers of HIV prevention and care services.

This Comprehensive Plan is a product of dedicated individuals who have adopted three principles:

- Focus decision-making at the state and local levels;
- Involve affected communities in decision-making; and
- Use profiles of communities at risk and research effective prevention and care strategies for informed decision-making.

This *2007-2009 Iowa Comprehensive Plan* describes the HIV epidemic in Iowa, provides information on populations at increased risk of infection, and recommends strategies to prevent further spread of HIV in Iowa. The Plan also serves to guide uses of HIV prevention funds from the Centers for Disease Control and Prevention (CDC) and HIV care funds from the Health Resources and Services Administration (HRSA) within our state.

Iowa is a low prevalence state for HIV infection and AIDS. This presents us with special opportunities and challenges in preventing new HIV infections and in helping individuals living with HIV remain healthy and have the ability to access life-saving medications. It is our sincere hope that no more Iowans will become infected with HIV. We encourage all citizens to take part in local prevention and care activities, to increase awareness and understanding of HIV/AIDS, and to show compassion for those infected and affected by HIV and AIDS.

Sincerely,

Linnea A. Fletcher
CPG Community Co-chair
