Iowa Brain Injury Resource Network Summary
April- June 2013

Trainings/Case Consultations
During this reporting period, 3 trainings were given, to a total of 190 people. Also in this quarter, 4 case consultations were given to 18 individuals and professionals.

IBIRN sites
Iowa Brain Injury Resource Network (IBIRN) partners have maintained this quarter at 150. New outreach plans are being discussed to increase and expand current and new partnerships.

Neuro-Resource Facilitation (NRF):
Neuro-Resource Facilitation (NRF) provided services to 311 new clients this quarter. This quarter shows 3476 contacts between NRF staff and NRF participants. The total of active cases to date is 2470 with 4 FTE NRF staff, and the Director of Programs and Services taking a portioned caseload. National caseload averages 30 to 400 cases per NRF; BIA IA continues to provide services above this average caseload.

Totes:
Adult and Pediatric tote bags continue to be assembled and distributed throughout the IBIRN, to new clients and others throughout this quarter. During this quarter, 258 totes were distributed, bringing the final year-to-date total for totes distributed to 1247. BIA IA staff also direct clients to the Virtual Tote Bag, which is available via the BIA IA website. BIA IA continues to strive for valuable and relevant content for these educational kits.

Brain Injury Support Network (BISN):
39 matches attempted to date since inception of program.
5 current matches.
9 mentors are survivors and 5 mentors are family members/caregivers
2 matches made this quarter
4 matches ended (met year requirement)
2 mentors screened
2 partners screened
