Waiver Review:

Kent Borota 2012-48

The Committee examined four factors set forth by rule and unanimously recommended denial of this waiver.

- 1. Why would applying the rule result in an undue hardship on petitioner? The petitioner has not demonstrated unique circumstances that would result in undue hardship as there are other avenues of obtaining licensing.
- 2. Would waiving the rule prejudice or harm the rights of any other person? The petitioner has not demonstrated that waiving this rule would not harm the rights of any other person, as all licensees are subject to the same rules.
- 3. Whether or not this has been set by statue? This is a matter of law that the board does have authority.
- 4. How will the public health, safety and welfare be protected if the waiver request is granted? Requiring a licensee to demonstrate competence in their respective discipline is the means by which the board can assure protection of public health, safety and welfare.
