Instructions:

This questionnaire is about head and/or brain injuries. It asks about blows to the head and/or other injuries that may have caused short or long-term difficulties for the person who experienced the injury. An injury of this type may or may not have resulted in a loss of consciousness. Those injuries that would be considered minor bumps to the head should not be recorded.

You are free to skip any questions that you do not want to answer. After you have finished filling out the questionnaire (even if you do not answer all of the questions), please place it in the white envelope provided and seal it. You may then return the envelope to your counselor and receive your gift card.
1) Age: _____ years

2) Sex:   □ Female
           □ Male

3) Race: (please check the best response)
         □ Black or African American    □ White
