Interim Written Question and Response Document

Round 1: Written Questions and Responses for questions submitted through August 22, 2013

Posted August 26, 2013

Q1. Will IDPH be sending vaccine wastage data reports for each program or how do we get that data?

A 1. Yes, the vaccine wastage report will be sent via e-mail by the end of this week.

Q2. Due to IRIS implementation, we did not have baseline data for many of our indicators. What do we use? 2011 data was the most recent we were given.

A 2. You can use the 2012 Year End data that was sent via e-mail in March to complete the Year-End Report. If you no longer have this data contact Marnell Kretschmer at 1-800-831-6293 ext. 3 or Marnell.kretschmer@idph.iowa.gov.

Q3. On page 14 of the RFA it lists a couple of items that need to be listed for each key personnel listed such as expertise and experiences and professional license numbers, however on the key personnel chart included in the RFA, there are no columns/space for this information to be included? Where should this information be included if it is required for the RFA?

A 3. The only information needed for this application is what is listed on the Cover Page document (Attachment A).

Q4. Required Vaccine Storage and Handling Objectives – Objective #2 baseline data is asking for number of days temperatures of vaccine storage units were documented in 2011 from agency’s temperature logs. Is it really 2011 you would like baseline data for or is this a typo and it’s really 2012 baseline you want data for?

A 4. Please provide 2012 data.

Q5. When I run the CoCASA report for HPV coverage it provides me a list of names but doesn’t does not give me a coverage percentage. The regular adolescent report tells me there are 325 records but this includes both male and female. I need to determine the total number of female records to calculate my HPV coverage percentage or is there additional criteria I need to select in the HPV report to include the percentage?

A 5. Running the “Adolescent Coverage Report” in CoCASA which will include your 3 HPV female only coverage level, it is on page 2 of the report. If you continue to have difficulties with CoCASA please call Kelly Ronney-Kozak at 515-281-0916.
