

Siouxland's Success Story

As part of their CTG program, the Siouxland District Health Department worked with a local restaurant, McCarthy's and Bailey's, for a healthier menu. A NEMS-R assessment was conducted, and the Siouxland CTG team provided easy recommendations on how the eating establishment could offer healthier choices.

Local news station, KTIV, covered the successful collaboration between the Siouxland CTG team and McCarthy's and Bailey's.
