

Plumbing and Mechanical Systems Board
Code Committee Notes

April 15, 2014

Members Present: Mick Gage, Blas Hernandez, Ron Masters, Rodney Schultz,
Others Present: Brian Bishop, John Kelly, September Lau, Susan Van Horn, Cindy Houlson

Mick Gage, chair, called the meeting to order at 11:00. Notes from the January 21, 2014 meeting were reviewed and approved.

Cindy provided an update on the Notice of Intended Action Chapter 61 State Mechanical Code. Comments received at Public Hearing were reviewed, two comments were received and both were supportive. Feedback on ARRC review was also discussed. The rule will be presented at the May board meeting for Adopt and File. The effective date will be mid-July, 2014.

Other business included questions on the Montezuma waiver which was approved at an earlier board meeting. Additional questions were discussed about the status of the Stringtown Waiver that was submitted by MMS engineering. John will follow up and determine the status at this point. Members shared that the business is open and the water issue must have been resolved. John also shared that there may be a new waiver coming in from Indianola but nothing has come forward at this time.

The meeting was adjourned by 11:30.

Respectfully Submitted:
Cindy Houlson
