For the vast majority of people, office pools, lottery tickets or a trip to the casino are harmless entertainment. For some, however, gambling leads to serious problems that also harm people close to them and the wider community. For problem gamblers, the Iowa Gambling Prevention and Treatment Program is here to help.

Gambling had taken control of Jeff's life two years ago. In that short time, he amassed nearly \$110,000 in credit card debt and was on the verge of bankruptcy. He spent hours away from his family and work to be at the casino. He opened extra credit cards and maxed them out. As the bills began to catch up, he knew he needed to stop but couldn't put the brakes on his habit himself. "I didn't know what I was going to do," he said. "Without Allen Hospital's gambling treatment program, I wouldn't have been able to quit. Treatment hasn't been easy but I've learned to cope with stress and the urges to gamble. I've got a long ways to go to be out of debt but I know I have the skills to do it.... I have hope."

**Did you know?** Since the mid-1970's, we have gone from a nation in which legal gambling activity was extremely rare to a nation in which legal gambling is permitted in all but a few states. In Iowa, there are 20 casinos, 2,600 lottery outlets, over 3,000 social and charitable gaming licenses, and countless internet and other illegal gaming opportunities.

## Why is Gambling Prevention & Treatment important to promoting and protecting the health of Iowans?

- Approximately 12% of all adult Iowans reported that they experienced a symptom of problem gambling in the last 12 months.
- More than 1 in 5 (22%) of adult Iowans have been negatively affected by the gambling behavior of a family member, friend, or someone else they know.
- Iowans with gambling problems report money spent gambling led to financial, personal, family, and work problems.
- Treatment is effective in reducing or eliminating gambling and associated problems like debt and employment problems.
- The 1-800-BETS-OFF helpline offers Iowans help and information. Almost 5,500 calls were logged to the helpline in FY2012.
