Promoting & Protecting the Health of Iowans

When you go to a health provider, you expect a certain level of knowledge, competency, and ethical standards. In other words, you expect someone who knows what they're doing, and who does it in a courteous, professional manner. The IDPH Bureau of Professional Licensure works to protect the public and improve access to quality health services by licensing qualified professionals.

The Bureau of Professional Licensure also strives to make the process of licensing more convenient for professionals. Online license renewal and e-payment services have begun, with the goal of a modernized Web-based program that will allow license renewal in real time from any location.

The Bureau of Professional Licensure works to help ensure consistency and quality in Iowa health services.

 \*Excludes July 2011 data \*\*Data through October 2013

**How are we doing?** Since beginning to monitor the processing time of new applications in 2011, Professional Licensure has made improvement on the average number of days to process new applications.

### 2 Percent of cases resolved within one year of receiving a complaint.

Data Source: Bureau database. Data are available annually.

**How are we doing?** The boards respond to 100% of signed complaints. Following board review, some cases are referred for investigation to the Iowa Department of Inspections and Appeals. The overall number of investigations remains relatively constant. Resolution of a case within one year is related to the complexity of the complaint and the availability of evidence to make an informed decision.

In FY13, the 19 boards received 293 complaints. Of these cases, there were 84 administratively initiated failed audits. For the remaining 209 cases, 131 (63%) were resolved within one year. From July 2012 to June 2013, 107 cases were submitted for investigation; 131 investigations were completed; 78 cases were pending investigation reducing the number of investigation carryover by 20%.
