THE NATIONAL INTEREST WAIVER PROGRAM

The State of Iowa Primary Care Office is committed to assisting all residents of Iowa to have access to quality, affordable health care. Therefore, the Iowa Department of Public Health (IDPH), Primary Care Office (PCO) is prepared to consider providing letters of support for the National Interest Waiver (NIW) on behalf of physicians holding certain types of visas under certain conditions. Physicians must be working in medically underserved areas of Iowa, including areas designated as Medically Underserved Areas, Medically Underserved Populations, and Health Professional Shortage areas. In addition, the PCO utilizes the following prioritization of support requests and requires adherence to the NIW support policy outlined below.

PRIORITIZATION

It is the policy of IDPH that support for national interest waivers will be prioritized to primary care physicians who are Board certified in one of the following specialties: Family Practice, General Surgeons, Internal Medicine, Obstetrics, Gynecology, Pediatrics, Psychiatry, and General Surgery. Hospitalists also will be considered. In addition, NIW support letters will also be recommended for specialties and sub-specialties.

It is also the priority of the Iowa Department of Public Health to provide letters of support for a National Interest Waiver application to those physicians that have been sponsored by the Iowa Department of Public Health for a J-1 Visa Waiver. However, other physicians will be considered on a case-by-case basis. Unlike the J-1 waiver in which some waivers may be provided for physicians to work in non-designated areas of Iowa, physicians interested in an NIW must practice in a federally designated shortage area in Iowa.

For all applications, the employer must demonstrate that the physician’s services are essential to the medical needs of the underserved; that the employer reports the percentage of Medicaid and Medicare patients; and that the application complies with all other requirements of the waiver review process.

POLICY

A request for a letter of support from IDPH must come from a U.S. health care facility or attorney on behalf of a physician and not directly from a physician. It is highly suggested that facilities utilize experienced immigration attorneys.

All of the required information and documentation must be submitted in a single package with documents presented in the order provided below. NIW support requests that do not comply with these requirements will not be considered. Each case file is reviewed by the Primary Care Office staff for compliance with application requirements and potential for service to Iowans.

The Iowa Department of Public Health’s policy is completely discretionary, voluntary, and may be modified or terminated at any time. The submission of a complete NIW support request to IDPH does not ensure that the Department will provide a letter of support. In all instances IDPH reserves the right to recommend or decline any request for a letter of support.
