2nd floor Training Center 72 Commercial Dr.
Iowa City, IA 52246 Ph. 319-338-3601

Hot Water Boilers Training

1:00 pm—5:00 pm In this 4-hour CE certified course you will learn about the advantages of hydronics, different types of hydronics, different materials used in boiler heat exchangers, ratings and venting requirements, primary/secondary piping, Delta t, water chemistry and additives, installation tools, start-up and maintenance.

Chris Olson, Sales Rep/Trainer with Specified Systems Inc., will be the course instructor, and will be joined by John Smart, national trainer for Weil-McLain. Both the instructor and the course have been approved for credit toward Iowa Hydronics discipline requirement established by the Iowa Plumbing and Mechanical Systems Board. **It is worth 4 hours of Hydronics Training CE credit.**

5:00 pm—5:30 pm DINNER— Dinner is FREE for those who attend the 5:30-7:30 session, otherwise cost is \$7/person.

5:30 pm—7:30 pm This 2-hour training session is split into two segments. The first hour session will be an overview of the Weil-McLain product line with focus on residential hot water units and light commercial. In the second hour session you will learn about service and maintenance practices of Weil-McLain high-efficiency boilers.

Chris Olson, Sales Rep/Trainer with Specified Systems Inc., and John Smart, national trainer for Weil-McLain, will be the training instructors. This 2-hr training session is geared towards learning more about the Weil-McLain line of products and is NOT certified for Iowa continuing education credit through the Iowa Plumbing and Mechanical Systems Board.
