Nationally Consistent Data Measures for Air Quality – Monitor Only

County Level Daily PM_{2.5} National Ambient Air Quality Standard Exceedences Year 2004

Presented below are data that represent the nationally consistent data measures related to monitored concentrations of PM_{2.5} in Iowa for the Year 2004:

PM_{2.5} includes fine particles that are between 0.1 micrometers and 2.5 micrometers in diameter. Particles of this size may cause health problems because their size allows them to be inhaled into the deep parts of your lungs.

Air Quality Monitors are not present in all counties. The Iowa DNR manages the Iowa Ambient Air Monitoring Network, and provides this data for use on the Iowa Environmental Health Tracking Network.

The National Ambient Air Quality Standards (NAAQS) are criteria set by the EPA to regulate sources of air pollution. The daily standard for PM_{2.5} is 35 micrograms per cubic meter ($\mu\text{g}/\text{m}^3$).

This report contains the following NCDMs at the County Level

1. Measures related to exceeding the NAAQS
 - Monitored Percent of days with PM_{2.5} levels over the NAAQS
 - Monitored Number of days with PM_{2.5} levels over the NAAQS
 - Monitored Number of Person-Days with PM_{2.5} levels over the NAAQS

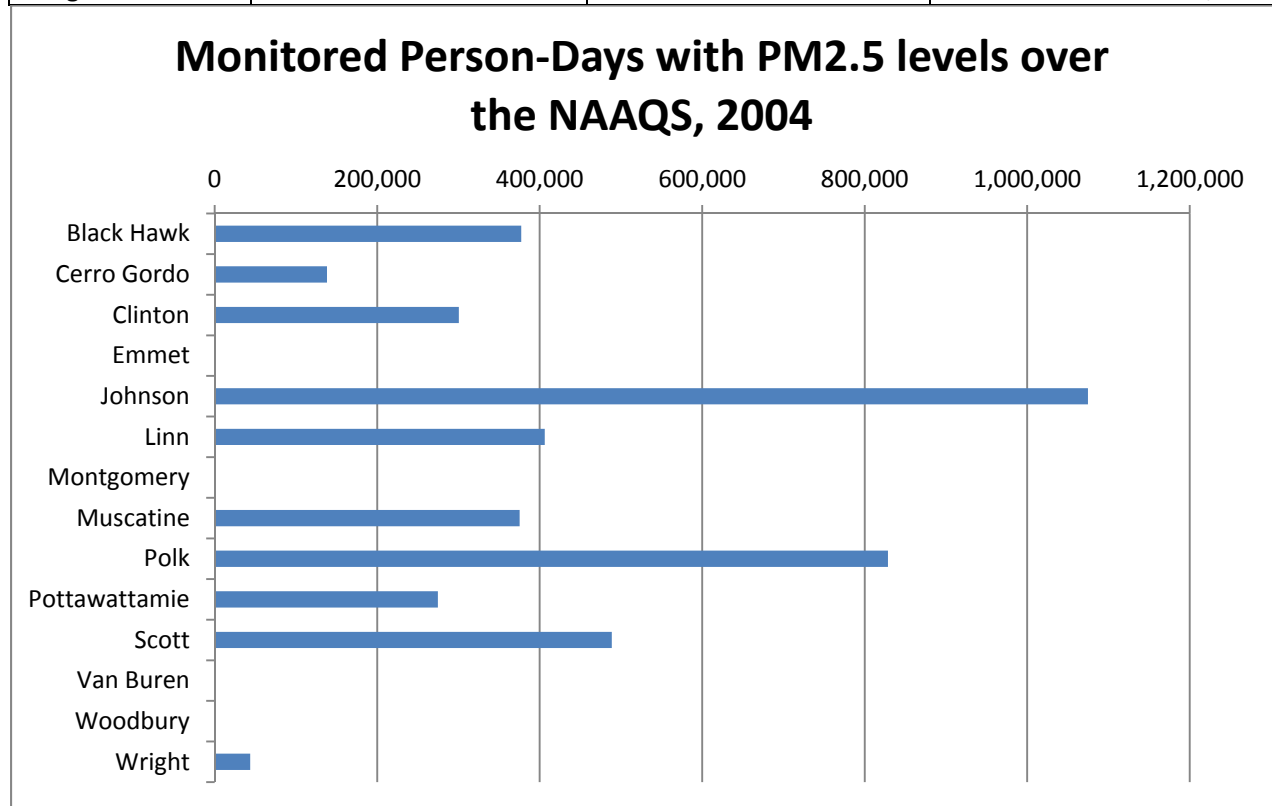

Person-Days is a measure of exposure that is calculated by multiplying the number of days an exposure is present and the population exposed. For this measure Person-Days uses the County Population estimate for population exposed.

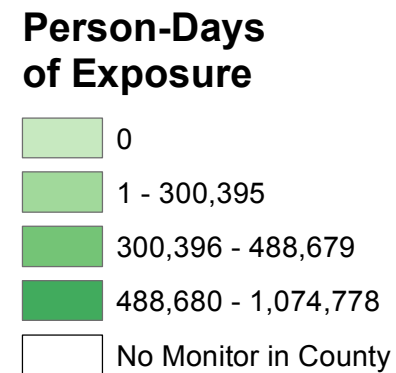

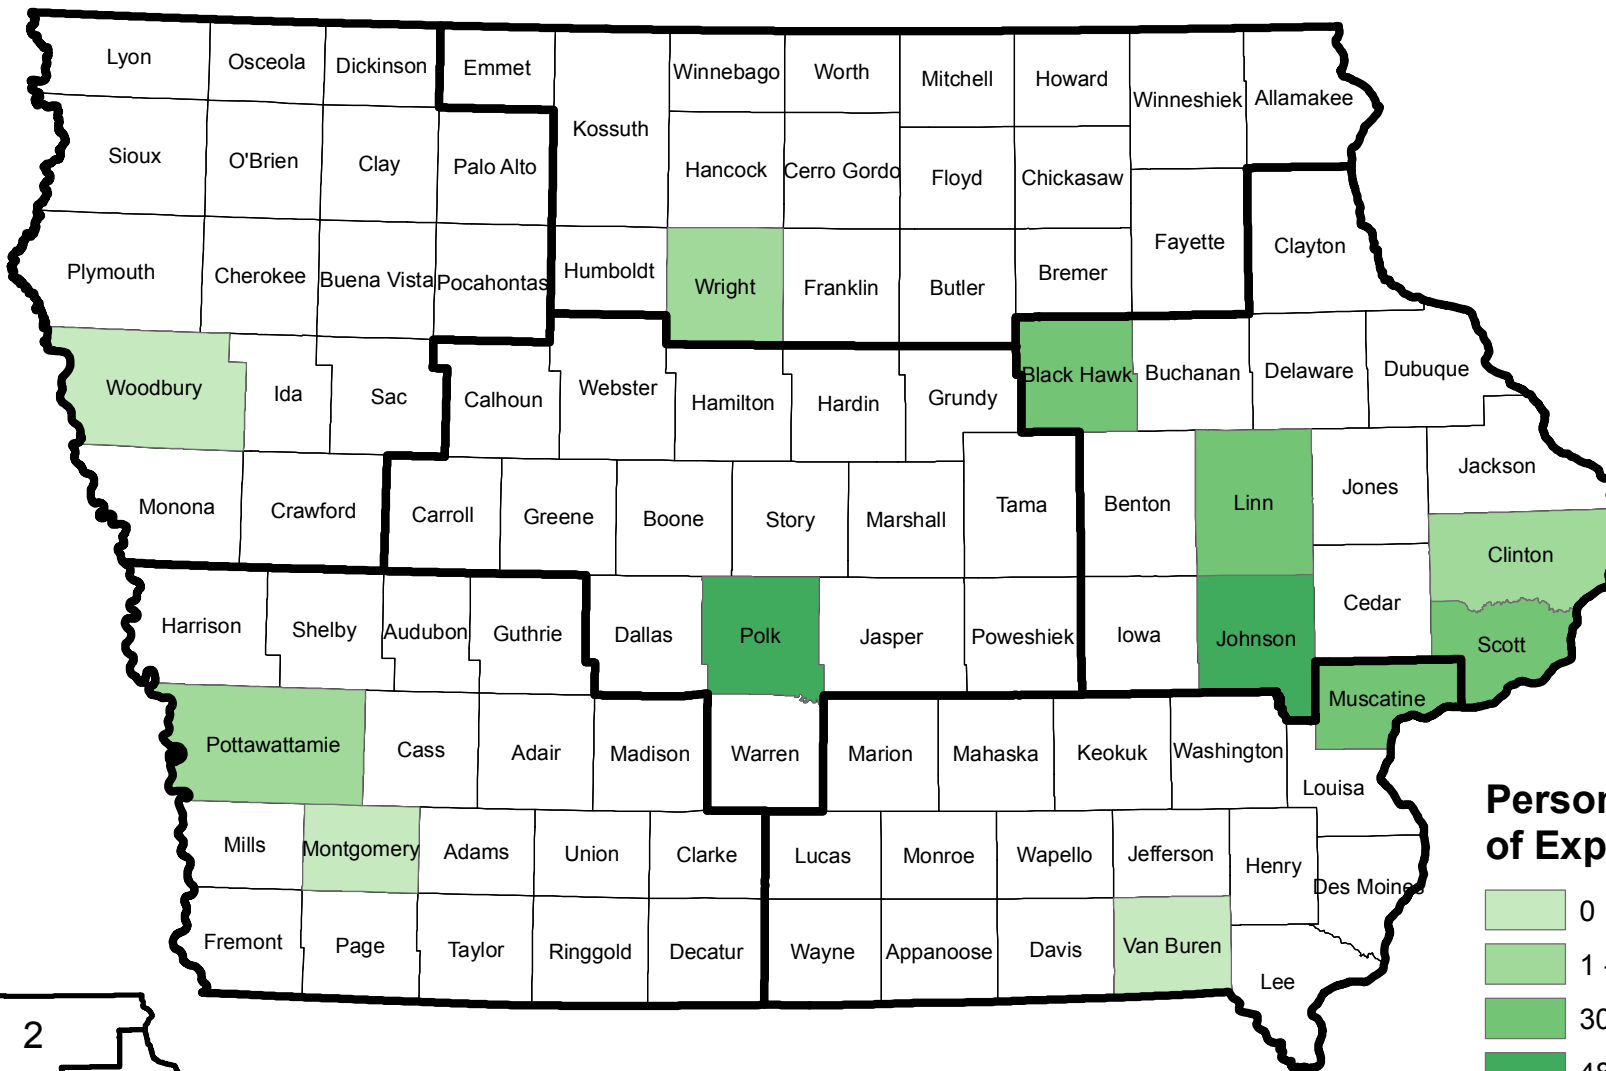

Iowa Environmental Public Health Tracking Network

1. Measures related to exceeding the Daily PM2.5 NAAQS (35 µg/m³) at the County level for monitored counties for 2004.

Monitored Daily PM2.5 levels over the NAAQS, 2004			
County	Percent of Days Over the NAAQS	Number of Days Over the NAAQS	Person-Days Over the NAAQS
Black Hawk	0.8	3	377,197
Cerro Gordo	0.8	3	138,124
Clinton	1.7	6	300,395
Emmet	0	0	0
Johnson	2.5	9	1,074,778
Linn	0.6	2	406,232
Montgomery	0	0	0
Muscatine	2.5	9	375,225
Polk	0.6	2	828,663
Pottawattamie	0.8	3	274,619
Scott	0.8	3	488,679
Van Buren	0	0	0
Woodbury	0	0	0
Wright	0.9	3	43,725

Monitored Number of Person-Days with PM2.5 Level Above the NAAQS of 35 micrograms per cubic meter 2004
