

# HIV / AIDS Printed Materials Catalog

All materials in this catalog have been approved by a statewide HIV/AIDS materials review panel as outlined in the "Content of AIDS-related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control and Prevention (CDC) Assistance Programs." (Interim Revisions June 1992)

Since HIV is spread primarily through sexual practices or by sharing needles, materials in this catalog may be considered controversial and may not be appropriate for all viewers.

**For additional materials, please see the link below:**
