User Rights on Local Windows Machine:

Installing and registering the application requires administrative rights to create the registry key. This key enables IDPH IRIS-CS to write to the Application and IDPH App event viewer logs.

Running and updating the application requires *read/write/execute* permissions to the application's installation directory and *write* access to the user's application data directory.

Registration key path:

HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Services\Eventlog

Default application installation path (*read/write/execute*):

C:\Program Files\Iowa Department of Public Health\IDPH IRIS Certificate Search Client

Default application data path (*write*):

C:\Documents and Settings\[user]\Application Data\Iowa Department of Public Health\IRIS-CS
