

Walking with a Purpose Success Story: Hancock County

May 27, 2010

In Garner, the walkability assessment was conducted in an eight-block area surrounding the high school and elementary school. The group enjoyed the assessment process and felt it was a positive tool. The sidewalks were in great condition with plenty of room to walk and cross the streets. In addition, the drivers and walkers appeared to drive and behave in a safe manner. The results of the survey will be presented to the city and school board.
